Classification Report

Detailed Classification Report:				
	precision	recall	f1-score	support
Low Severity	1.00	1.00	1.00	62786
Medium Severity	1.00	1.00	1.00	13695
High Severity	1.00	1.00	1.00	3519
accuracy			1.00	80000
macro avg	1.00	1.00	1.00	80000
weighted avg	1.00	1.00	1.00	80000

Confusion Matrix

Test Metrics

Metric	Metric Value	Description
Overall Accuracy	0.9997	The total percentage of shadow events correctly classified into the right severity level (Low, Medium, or High).
Balanced Accuracy	0.9995	The average accuracy across all severity levels; ensures the model isn't just ignoring rare "High Severity" events.
Macro F1-Score	0.9994	A combined measure of precision and recall that treats all severity levels as equally important, regardless of how often they occur.
